Volunteer Opportunities

Client Advocates: Ruth Hoekstra

ruthhpc@gmail.com

Volunteers in this area go through extensive training and will be working one-on-one with clients who call or come in for pregnancy tests and options information. This area requires a one year commitment of no less than two four-hour shifts per month. Extensive training provided.

Nursing: Krista Morris, RN

krista@hopepregnancy.net

We need LPNs and RNs to provide nurse verifications of positive pregnancy tests at the Center and provide some one-on-one education for patients. Nurses of at least RN status can also be trained to perform limited ultrasounds, as resources are available. All nurses must participate in our one-day volunteer training, and are encouraged to complete the full training seminar.

Earn As You Learn: Christina Williams

christina@hopepregnancy.net

Earn as You Learn volunteers help meet practical client needs through our emergency assistance and incentive programs. They handle a variety of tasks, such as sorting donations, preparing maternity clothes orders, and working one-on-one with clients requesting material assistance. Clients earn points by participating in various learning opportunities. EAYL volunteers verify the clients' involvement and help them shop for needed supplies in our on-site store, Josephine's Closet. One-day volunteer training required, full training seminar recommended.

Mom2Mom Mentoring: Jenna Jimenez

jennahpc@yahoo.com

This program matches a young pregnant or parenting client with a volunteer mentor. We desire female volunteers who are strong, compassionate, and Godly women committed to pouring into the life of a young mother or mother-to-be for a nine month commitment. Initial and ongoing training and support provided. One-day volunteer training required, full seminar recommended.

Healing Programs: Shelia Carter

martha@hopepregnancy.net

Our primary healing program is a post-abortive recovery ministry for those struggling with the pain associated with a past abortion experience. We desire to facilitate healing and restoration through confidential one-on-one and group Bible studies for women or men who have experienced abortion. Volunteers are required to participate in a group as part of their training. Additionally, one-day volunteer training is required, full seminar is recommended.

Men's Ministry: Martha Sitzler

martha@hopepregnancy.net

There are many ways men can be involved in the work the Center, including maintenance, building repair, groundskeeping, accounting, events, and so much more. We also desire to develop a thriving men's ministry here at Hope. So far, we've had the most success when a male client advocate is available to connect casually with the men who visit us along with a friend or partner. These impromptu connections could to grow into a support group, fatherhood class, mentoring relationship, or other more organized ministry. One-day volunteer training recommended for most roles, full seminar required for client advocate role.

Administrative: Martha Sitzler

martha@hopepregnancy.net

Volunteers in this area help with paperwork, date entry, mailings, and other administrative tasks that make our Center run smoothly. This area has more flexibility in hours as well as the term of commitment. Based on your skills & availability, we should be able to match you with a task that needs to be done. One-day volunteer training recommended.

Mobile Pit Crew: Erica Catano

erica@hopepregnancy.net

Pit Crew members help maintain our mobile medical unit. This might involve driving, providing security while the mobile staff serve clients, or keeping the unit ready to go. That includes filling water, gas, and propane tanks, emptying waste tanks, routine maintenance (oil, fluids, generator, battery levels, etc.), and more.

If you don't see a role here that you have in mind, please let us know!

We'd love to explore that with you.
