Volunteer Opportunities

Client Advocates: Ruth Hoekstra

ruthhpc@gmail.com

Volunteers in this area go through extensive training and will be working one-on-one with clients who call or come in for pregnancy tests and options information. This area requires a one-year commitment of no less than two four-hour shifts per month. Extensive training provided.

Nursing: Melinda Parker, LPN

melinda@hopepregnancy.net

We need LPNs and RNs to provide nurse verifications of positive pregnancy tests at the Center and provide some one-on-one education for patients. Nurses can also be trained to perform limited ultrasounds, as resources are available. All nurses must participate in our one-day volunteer training and are encouraged to complete the full training seminar.

Earn As You Learn: Christina Williams

christina@hopepregnancy.net

Earn as You Learn volunteers help meet practical client needs through our emergency assistance and incentive programs. They handle many tasks, such as sorting donations, preparing maternity clothes orders, and working one-on-one with clients requesting material assistance. Clients earn points by participating in various learning opportunities. EAYL volunteers verify the clients' involvement and help them shop for needed supplies in our on-site store. One-day volunteer training required; full training seminar recommended.

Mom2Mom Mentoring: Leah Albro

leah@hopepregnancy.net

This program matches a young pregnant or parenting client with a volunteer mentor. We desire female volunteers who are strong, compassionate, and Godly women committed to pouring into the life of a young mother or mother-to-be for a nine month commitment. Initial and ongoing training and support provided. One-day volunteer training required; full seminar recommended.

Healing Programs: Shelia Carter

shelia@hopepregnancy.net

Our primary healing program is a post-abortive recovery ministry for those struggling with the pain associated with a past abortion experience. We desire to facilitate healing and restoration through confidential one-on-one and group Bible studies for women or men who have experienced abortion. Volunteers are required to participate in a group as part of their training. Additionally, one-day volunteer training is required, full seminar is recommended.

Men's Services: Timothy Hall

timothy@hopepregnancy.net

We are currently working to develop a thriving men's ministry here at Hope. So far, we've had the most success when a male mentor is available to connect casually with the men who visit us along with a friend or partner. These impromptu connections will grow into other opportunities such as a fatherhood class, mentoring relationship, or other more organized ministry. One-day volunteer training recommended; full seminar required for mentoring role.

Administrative: Martha Sitzler

martha@hopepregnancy.net

Volunteers in this area help with paperwork, data entry, mailings, and other administrative tasks that make our Center run smoothly. This area has more flexibility in hours as well as the term of commitment. Based on your skills & availability, we should be able to match you with a task that needs to be done. One-day volunteer training recommended.

If you don't see a role here that you have in mind, please let us know!
We'd love to explore that with you.
